

Derbyshire Sexual Health Strategic Framework 2013-18

Your Sexual Health Matters		
Vision for Derbyshire - Working together to achieve good sexual health		
Strategic objective 1	Strategic objective 2	Strategic objective 3
Ensure effective prevention and early diagnosis to minimise harm to individuals, families and communities	Identify and protect those most at risk from poor sexual health outcomes	Maximise opportunities to deliver a robust and efficient sexual health service
Delivery and monitoring of strategic objectives		
Increasing understanding of the consequences of risky sexual behaviour and importance of good sexual health	Commissioning one effective, integrated sexual health service	Development of pathways into and from the sexual health service
Building resilience and empower individuals to make healthy choices	Delivering targeted activity to meet the needs of those most at risk	Build long term capacity through cross-working with wider services <i>"sexual health is everyone's business"</i>
Identifying groups and individuals at risk and delivering early intervention	To listen to service users and engage non-service users in the design of new services	Build a service against measurable outcomes to meet need
Monitoring Achievement		
<ul style="list-style-type: none"> Reduced STI rates Routine STI testing in primary care Increased uptake of LARC Improved sexual health promotion activity across treatment services Reduced onward transmission of STIs 	<ul style="list-style-type: none"> Increased uptake of STI screening from individuals at highest risk of STIs Decreased under 18 conceptions Less people diagnosed with HIV at a late stage of infection 	<ul style="list-style-type: none"> Decrease in the proportion of people diagnosed with a repeat STI Increased uptake of sexual health skills training across other services One Integrated Sexual Health Service
