Pharmacy opening hours

Pharmacies are able to apply to NHS England for changes to core opening hours, or notify them of changes to additional supplementary opening hours, throughout the year. Since publication of the PNA in March 2018 there have been a number of changes to individual pharmacy opening times. Pharmacies are required to keep their NHS Choices entries up to date. For details of individual opening times that may have changed since PNA publication, please review the relevant entry on the [NHS Choices website](#).

Table 2 highlights the change in number and rate of community pharmacies per 100,000 head of total population. In June 2018 the Office for National Statistics (ONS) published the mid-2017 population estimates for UK, England and Wales, Scotland and Northern Ireland¹ which updates the previously published mid-2016 figures used in the PNA 2018-21. Taking into account these and the changes to provision as outlined in Table 1; Amber Valley and Bolsover localities have seen a reduction of one pharmacy per 100,000 population. Amber Valley has seen a physical reduction of one pharmacy while growth in Bolsover's population has outweighed any change to existing provision. There has been no overall change to the rate of provision across the Derby and Derbyshire Local Authority areas.
