A family is defined as a group of people who are either a:

- married, same-sex civil partnership, or cohabiting couple, with or without child(ren)
- lone parent with child(ren)
- married, same-sex civil partnership, or cohabiting couple with grandchild(ren) but with no children present from the intervening generation
- single grandparent with grandchild(ren) but no children present from the intervening generation

Children in couple families need not belong to both members of the couple.

For single or couple grandparents with grandchildren present, the children of the grandparent(s) may also be present if they are not parents or grandparents of the youngest generation present.

Deprivation

The Census measure of deprivation uses the following four dimensions:

Employment - Where any member of the household who is not a full-time student is either unemployed or long-term sick; **Education** - Where no member of the household has at least a level 2 qualification, and no member of the household aged 16-18 is a full-time student; **Health and disability** - If any member of the household has 'bad or very bad' general health or has a long term health problem; and **Housing** - The household's accommodation is either overcrowded (with an occupancy rating -1 or less), is in a shared dwelling, or has no central heating. A household is classified as being deprived in one to four of these dimensions in any combination.

Household deprivation (Census classification)	Number of households	% of total households
