

School Cluster Profile 2016

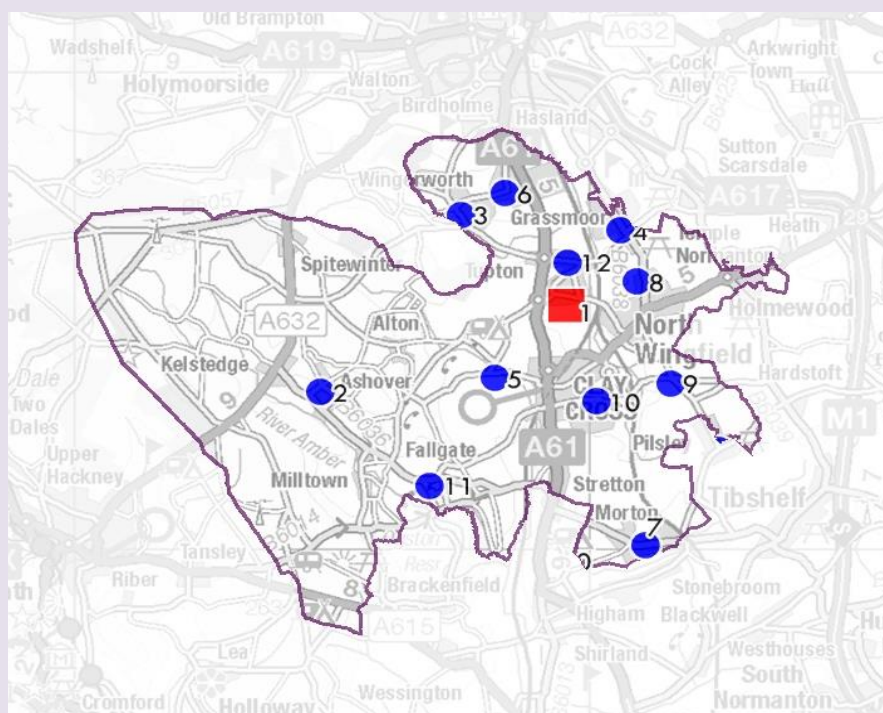

Tupton Hall

This profile provides a snapshot of the health and well-being of children in the school cluster* (excluding special schools). It is designed to help the local authority and health services improve the health and wellbeing of children and tackle inequalities.

Secondary School & Primary Feeders within Cluster

'School cluster' is a term used by Derbyshire County Council to describe a secondary school and its primary feeders i.e. primary schools from which the majority of pupils transfer from at the end of Year 6. Some clusters may encapsulate more than one secondary school due to the inclusion of faith schools, which have different admission criteria.

The map below shows the secondary and primary schools within the cluster, in addition to the geographical catchment area.

Key: ■ Secondary ● Primary School ● Infant School ● Junior School

1:Tupton Hall School, 2:Ashover Primary School, 3:Deer Park Primary School, 4:Grassmoor Primary School, 5:Holmgate Primary School, 6:Hunloke Park Primary School, 7:Morton Primary School, 8:North Wingfield Primary and Nursery School, 9:Park House Primary School, 10:Sharley Park Community Primary School, 11:Stretton Handley CE (Controlled) Primary School, 12:Tupton Primary School

*School Cluster arrangements as of October 2015 membership, which will be updated as necessary on an annual basis in future releases.

Key Points:

- There are 11 primary schools feeding Tupton Hall School.
- The schools within Tupton Hall have approximately 4,008 pupils on their roll as at Jan 2016.
- Approximately 4.0% of children within the cluster are non-white British and 1.3% do not speak english as their first language.
- Rates of breastfeeding, GCSE attainment (5 A*-C including Maths & English), persistent absence in secondary schools, fixed term exclusions and the proportion of children in poverty are significantly worse than the Derbyshire average.
- Rates of authorised absences in both the primary and secondary phases are significantly better than the Derbyshire average.
- Compared to the Derbyshire average, within this geographical boundary of the school cluster there is a significantly higher proportion of housing rented from the Council Housing Association and significantly less people living in privately rented housing.

Population Structure- Tupton Hall

The first chart below shows the proportion of children enrolled to schools within the cluster by year group and gender compared to the Derbyshire cluster average. The schools within Tupton Hall have approximately 4008 pupils on their school roll as at January 2016.

It is important to note that given that some clusters contain two secondary schools and/or a sixth form, the proportion of enrolled pupils within the cluster may vary slightly by year group compared to the Derbyshire cluster average.

The second chart below shows the resident population within the geographical school cluster catchment area by five year age band and gender, compared to the Derbyshire average.

School Cluster (Enrolled Children)

School Cluster (Catchment Resident Pop)

Ethnicity

The table below shows how the ethnicity of children enrolled to schools within the cluster compares to the Derbyshire cluster average. The proportions quoted are based only on children where the ethnicity has been recorded and therefore numbers may not add to the total cluster headcount as quoted above.

Ethnicity	Number	Cluster %*	Derbyshire %*
White British	3,825	96.0%	93.6%
White Other	39	1.0%	1.9%
Asian/British Asian	29	0.7%	1.1%
Black/African/Black British	2	0.1%	0.3%
Chinese	8	0.2%	0.3%
Mixed	70	1.8%	2.5%
Other	13	0.3%	0.3%

* proportions calculated using total known ethnicity of pupils

First Language

Children and their families who do not speak English as their first language may face additional challenges at school, which may often require extra support. While the range of proficiency of the English language is unclear, the table below shows how the proportion of children within the cluster who do not speak English as a first language (where known), compares to the Derbyshire average.

First Language	Number	Cluster %*	Derbyshire %*
English	3,940	98.6%	97.9%
Other	54	1.4%	2.1%

* proportions calculated using total known first language of pupils

Cluster Summary - 1 Tupton Hall

The spine chart below shows how child health (including related outcomes and wider determinants) within the cluster compares to the Derbyshire and England average. The central black line represents the Derbyshire average and the cluster rates are represented by the circles, which are shaded based upon the statistical significance compared to the Derbyshire average. The range of results for all clusters within Derbyshire is shown as a grey bar. In addition, rates for England are also represented as a grey diamond.

Key:

- Significantly better than Derbyshire average
- Not significantly different from Derbyshire average
- Significantly worse than Derbyshire average
- No significance can be calculated
- Significantly Higher than Derbyshire average
- Significantly Lower than Derbyshire average

* Figures suppressed due to small numbers
- No data available

Indicator	Cluster Number	Cluster Value	County Avg	England	Worst/lowest	Derbyshire Range	Best/highest
Birth and Infancy							
1 Birth rate	343	60.3	57.5	62.2	42.3		84.3
